RELEVANT EXPERIENCE

Research Lab, Dr. Alex Greenleaf

William & Mary, Williamsburg, Virginia

Research Assistant

January 20XX - Present

- Developed comprehensive study of adjacent land use and watershed dynamics of the Chickahominy river
- Utilized GPS mapping techniques to compile land use data
- Created coverage and land use maps with GIS
- Drafted policy change proposal and presented findings to James City County Parks and Recreation Advisory Committee

Student Conservation Association, Shenandoah National Park

Waynesboro, Virginia

Fisheries Management Intern

Summer 20XX, 20XX

- Assisted in electroshock backpack fishing to monitor brook trout and other fish populations
- Handled, counted, measured, and weighed fish, averaging approximately 25 per day
- Operated clinometer, flowmeter, and Hydrolab for habitat analysis
- Educated park volunteers and visitors in understanding fisheries management objectives

Eastern Shore Soil and Water Conservation District

Mechanicsville, Virginia

Volunteer

Summer 20XX

- Co-taught adult and family education programs on natural resource stewardship
- Participated on clean-up and recycling teams; recruited two additional members
- Staffed courtesy tents for water trail events, festival face-painting booths, and children's hands-on activities stations

ACTIVITIES

Student Alumni Council

William & Mary

Member

September 20XX - Present

- Serve as a liaison between William & Mary alumni and current students
- Host alumni association events and promote benefits of active alumni status to current students
- Assisted with venue set-up and registration for Connecticut alumni event, with an attendance of 350 people

Student Red Cross

William & Mary

Publicity Chair

September 20XX - May 20XX

- Coordinated volunteers for distribution of publicity materials for blood drives
- Created Excel spreadsheet to keep track of outreach activities and campus coverage
- Participation in blood drive events increased by 20% over previous year
